PROFESSIONAL SUMMARY

As a skilled Front End Developer with 5 years of experience, I have a proven track record of creating visually appealing and user-friendly websites. My biggest achievement was leading a team to successfully redesign and launch a company's website, resulting in a 20% increase in traffic and improved customer engagement. My best qualities include strong attention to detail, problem-solving abilities, and the ability to work collaboratively with cross-functional teams. I possess expertise in HTML, CSS, JavaScript, and React, allowing me to develop responsive and interactive web pages. With my passion for staying updated on the latest web development trends and my dedication to delivering high-quality work, I am confident in my ability to add value to any organization as a Front End Developer.

EXPERIENCE

Front end delovper
Fresher, India, Chennai
May 2020 - Now

As a Front end developer at Fresher, India from May 2020 to July 2024, I was responsible for creating user-friendly and visually appealing websites and applications. I collaborated with designers and back-end developers to ensure seamless functionality and optimized performance. I also kept up with industry trends and implemented new technologies to improve the overall user experience.

- Designed and developed responsive websites using HTML, CSS, and JavaScript
- Collaborated with cross-functional teams to ensure successful project delivery
- Implemented SEO best practices to improve website rankings
- Conducted regular testing to identify and fix any issues on the front-end
- Utilized version control systems to manage code changes
- Improved website loading time by optimizing images and code
- Created custom animations and effects using CSS and JavaScript
- Developed mobile-friendly interfaces for enhanced user experience

EDUCATION

Bachelor of computer Science (BSc), University of Madras, India, Chennai
2018 - 2022

A **Bachelor of Computer Science (BSc CS)** is a degree that focuses on computing, programming, and software development. It typically covers subjects like:

- **Programming Languages** (Java, Python, C++)
- **Data Structures & Algorithms**
- **Databases & SQL**
- **Computer Networks**
- **Operating Systems**
- **Software Engineering**
- **Artificial Intelligence & Machine Learning** (optional)
- **Cybersecurity** (optional)

Graduates can pursue careers as **software developers, data analysts, cybersecurity experts, or AI engineers**. The degree provides strong problem-solving and analytical skills.
